Author Index to Volume 35

Arai, T., 133
Ayres, R.U., 95

Bhargava, S.C., 319

Cevidalli, G., 51
Chiang, J.-T., 339
Coates, J.F., 295, 387

Fishelson, G., 375

Goldberg, W.H., 385
Graves, S.B., 13

Helmer, O., 93
Hiraoka, L.S., 29
Huber, J., 365

Ishitani, H., 97

Jacob, R., 327

Kaya, Y., 97
Kinoshita, S., 211
Kolm, J.E., 63

Madu, C.N., 327
Martin del Campo, E., 351
McCurdy, T.H., 299
Mori, S., 149

Nakamura, S., 167

Pelc, K.I., 383

Ranta, J., 231
Rymon, D., 375

Saito, M., 167
Seifert, L.C., 1
Sheinin, R., 277

Tani, A., 191
Tchijov, I., 261, 277
Torii, Y., 179

Yamada, M., 211

Zaidman, B., 51
Zeisler, A.D., 1

Book Review Index to Volume 35

Bryson, J.M., Strategic Planning for Public and Non-Profit Organizations, 295

Brockhoff, K., Forschung und Entwicklung— Planung und Kontrolle, 385

Coombs, R., Saviotti, P., Walsh, V., Economics and Technological Change, 383

Feinberg, G., Solid Clues: Quantum Physics Molecular Biology, and the Future of Science, 387

United Nations, Symposium on Global Security for the Twenty-First Century, 93

Subject Index to Volume 35

Agricultural innovations
adoption of, the case of drip irrigation of cotton in Israel, 375
American hemisphere
technology and the world economy, 351
Assembly automation
forecast in the automobile industry: Technological progress in robotics, 133
Automobile industry
technological progress in robotics, forecast of assembly automation, 133
Automobile manufacturing, Japanese
in an American setting, 29

CIM introduction
some socioeconomic aspects, 261
CIM technologies
electronics and information technology impact on future trends and applications, 231
Computer-based automation
in Canada, some potential job displacements, 299

Drip irrigation of cotton in Israel
adoption of agricultural innovations, 375

Electronics and information technology
impact on the future trends and applications of CIM technologies, 231
Econometric model, world
robotization on macro and sectoral economies, 211

Flexible manufacturing systems (FIMS)
current diffusion and main advantages, 277
Follower countries
technology and alliance strategies, 339

Globalizing industries
regional and national consequences, of Pacific Rim, 63

Industrial development
trend and implications of robotization in Korea, 179
Industrial robot
penetration, international comparisons, 191
Information technology and electronics
impact on future trends and applications on CIM technologies, 231

Japanese manufacturing industries
robotization in, 97
Job displacements
associated with computer-based automation in Canada, 299

Lotka-Volterra equations, generalized
and the mechanism of technological substitution, 319

Manufacturing policy, national
an industry perspective on promoting sustained improvement in U.S. global competitiveness, 1
Manufacturing systems, flexible (FIMS)
current diffusion and main advantages, 277

Pacific rim
regional and national consequences of globalizing industries, 63
Process technologies, measuring
technology efficiency index, 51

R&D Expenditure, corporate
a descriptive analysis of the period 1965 to 1984, 13
Robot penetration, industrial
international comparisons, 191
Robotics
about this issue, 95
Robotics, technological progress
forecast of assembly automation in the automobile industry, 133
Robotization in Japan
macroeconomic effects, 149
Robotization on the Japanese economy
impacts of, 167
Robotization in Japanese Manufacturing
industries, 97
Robotization in Korea
trend and implications for industrial development, 179

Robotization on macro and sectoral economies
impact within world econometric model, 211

Social movements, 365
Strategic planning
in technology transfer: a dialectical approach, 327

Technological substitution
the mechanism, generalized Lotka-Volterra equations, 319
Technology and alliance strategies
for follower countries, 339
Technology efficiency index
a method for measuring process technologies, 51
Technology transfer
strategic planning in: a dialectical approach, 327
Technology and the world economy
the case of the American hemisphere, 351

U.S. global competitiveness
national manufacturing policy: an industry perspective on promoting sustained improvement, 1
